What we do

# We have developed an algorithm to solve your user needs →

# What we do

Our web development services enhance your online presence with custom, high-performance websites. We specialize in responsive web design, creating visually engaging sites that reflect your brand and deliver seamless user experiences.

**Web Development**

Our UI/UX design services offer visually stunning, user-centered interfaces that improve customer satisfaction and elevate brand identity in today's competitive digital landscape.

**UI/UX Design**

Our mobile app development services turn your ideas into robust iOS and Android apps, using the latest technologies to create secure, scalable, and intuitive mobile solutions.

**Mobile App Development**

We offer comprehensive full-stack development services, covering both front-end and back-end development. Our team delivers fast, responsive websites for high performance and an outstanding user experience.

**Full Stack Development**

Our custom software development services provide tailored software solutions like CRM and ERP systems, designed to align with your business goals and improve operational efficiency.

**Custom Software Development**

Our QA and testing services ensure your digital products are bug-free, secure, and high-performing, delivering dependable user experiences across all devices and platforms.

**QA And Testing**

Using data-driven digital marketing strategies like SEO, PPC, and social media marketing, we boost online presence, increase brand visibility, and convert leads into loyal customers.

**Digital Marketing**

Fortmindz provides cloud engineering services for smooth operations, with secure, cost-effective solutions in cloud migration, infrastructure optimization, and cloud application development.

**Cloud Engineering**

We build reliable, conversion-optimized e-commerce solutions that provide seamless shopping experiences, including custom design and smooth integrations.

**E-Commerce Solutions**

At Fortmindz, our logo and graphic design services capture your brand's identity, using creative, strategic designs to engage your target audience.

**Logo & Graphic Design**

# Industries Verticals

★★★★★

Working with this team on the website was fantastic! They kept us in the loop consistently, making communication feel natural and easy. They were receptive to our ideas and quick to make any changes we needed, which made the process smooth. On top of that, their technical skills and creativity really brought our vision to life. They stuck to timelines, were super organized, and delivered a site that looks great and works perfectly.

Venkat Avasarala

Acuvity Consulting

★★★★★

I hired Indrajit to build my business website and create my business logo. He works as part of an agency, so there were multiple people involved in the project. The process started off smoothly enough, and I'm happy with the end product. However, it did take multiple rounds of reviews/ revisions to get it there.

★★★★★

Indrajit and team were excellent at understanding my requirement to completely redesign and re-develop my company's website. After an initial detailed discussion several ideas were shared and communication and response times were always very good. I worked closely with their team to iterate the site until it was to my requirements including adding a new chatbot, whatsapp links, anti-spam message box and lot's of unique graphics and tailored design. I'm now able to update the website myself via WordPress.

★★★★★

Sayak has shown remarkable technology expertise, customer-focus, and resourcefulness in delivering IntelXcel's Mobile App development. With Sayak's assistance, we were able to deliver an MVP of the product SweetLifeSaver which is a Diabetes Self Care and Management Application.

Sridhar RajaGopalan
Principal, IntelXcel LLC

★★★★★

I have worked with Sayak and Fortmindz Team for three years on a major mobile app development project and have found him to be a professional IT partner and highly competent manager, who has assembled a capable multi-skilled team that delivers quality outcomes.
